Documentation

Key Concept

Fast Solutions provides industrial technical services in South Carolina, including HVAC, plumbing, welding, and firestop systems. The brand is built on speed, reliability, supervision, and professional execution.

Brand Objective

The redesign aims to elevate the company from a basic local image to a stronger corporate identity, helping the brand appear more trustworthy, solid, and ready to serve larger commercial and industrial clients.

Brand Personality

Professional. Fast. Technical. Reliable. Strong. Direct. Hardworking. Corporate.

Fast Solutions

Rebranding Direction

The identity was redesigned to make Fast Solutions feel stronger, cleaner, and more corporate, while keeping its practical and direct personality. The new visual direction is built around speed, technical strength, reliability, and industrial execution.

- **Speed / Reliability / Strength / Execution**

Color System

The color system was refined to communicate industrial strength, speed, reliability, and professional execution.

Amber Honey

Adds **energy, action, and high visibility** to the identity. It keeps the yellow direction requested by the client, but with a warmer and more industrial tone.

HEX: #F2A905
Pantone: PANTONE 130 C
CMYK: 0% / 38% / 96% / 0%

Gunmetal

Gives the brand a **solid, technical, and corporate presence**. It feels stronger than a regular gray and more refined than pure black.

HEX: #3A3F44
Pantone: PANTONE 4140 C
CMYK: 16% / 0% / 0% / 88%

Typography

Google Sans was selected for its clean, modern, and highly readable structure. The Bold weight gives the identity strength and presence, while the Regular weight keeps the tagline clear, balanced, and professional.
